EngenderingPolicyThroughEvaluation

FeministEval
The goal of EvalGender+ is to ensure that all SDGs are achieved with gender responsive and equity focused lenses and that the evaluation field is enhanced with the use of government services effectiveness evaluation framework (GEEF) lenses.

Progress on gender equality and social equity is fundamental for realizing human rights for all, creating and sustaining peaceful societies, and building socially inclusive and sustainable development trajectories, where the benefits of development are equitably shared.

The goal of EvalGender+ is to impact through learning and knowledge enhancement.

What is the EvalGender+ OBJECTIVE?

EvalGender+ WORKS THROUGH

5 TASKFORCES:

- Gender responsive and equity focused evaluations enhance the use of government services effectiveness evaluation framework (GEEF) lenses.
- Progress on gender equality and social equity is fundamental for realizing human rights for all, creating and sustaining peaceful societies, and building socially inclusive and sustainable development trajectories, where the benefits of development are equitably shared.
- The goal of EvalGender+ is to impact through learning and knowledge enhancement.
- EvalGender+ works to strengthen the demand, supply and quality of gender responsive and equity focused evaluations as an avenue to support accountability for gender equality and social equity.

Why EvalGender+?

The 2030 Agenda "Transforming our World: the 2030 Agenda for Sustainable Development" calls for an effective, inclusive and transparent monitoring and evaluation framework at the national, regional and global levels to help countries achieve the 2030 Agenda and the Sustainable Development Goals (SDGs) is an important opportunity to build on the lessons learnt from the Millennium Development Goals (MDGs) to tackle social inequality and MDGs to tackle social inequality and gender inequality in all its dimensions.

The agencies participating in EvalGender+ are UN entities, multilateral banks, civil society organizations, academic institutions and voluntary organizations for professional evaluation (VOPEs). The goal of EvalGender+ is to impact through learning and knowledge enhancement.

EvalGender+ is a global multi-stakeholder partnership under EvalPartners.

1. Capacity Building
2. Knowledge Management
3. Communication and Advocacy
4. Fundraising and Networking
5. Participatory Evaluation

In this context, EvalGender+ works to strengthen accountability for gender equality and social equity.
